

WORK REPORT

To God be the glory and praise Amen. We're grateful to our father, the commander in chief of our missionary task

One aspect of our vision is reaching out to the Quranic boys called (Talibeas) Almajiris showing them the love of Christ, it was looking impossible to get started, considering the financial implication; complication and characters of these boys, languages and integration until n February when the Lord enable us to see with the eyes of faith that it is possible

In this first phase of the work; we pray to have interested Talibeas who're in need; And to establish good relationship with them and their teacher.

God in His infinite mercy answered our prayers and one day, a boy came to the house to ask for soap my wife gave him, invited him to come back for food and through that we got in torch with the rest boys fourteen (14) of them, though they were not coming regularly. But early march 2005, I met with their teacher explaining our intension to be feeding this boy's 2times per week Tuesdays/Thursdays, which he expressed his happiness and appreciated our love, and he also assured us that the boys will be consistent.

Infact, our relationship is growing deeply their manner is having little changes any times they're around. They have come to understand that we are Christian and as we pray with them before they eat, now they don't start eating without asking Pastor Pray, that's God working!

On the 2nd June, they told us that they'll be going on break/vacation to farm until around Oct. /Nov, and we decided to give them gifts on sat 4th June to close the year. Thanks to the Lord for helping us to buy cloths for each one. Also, this work is not only feeding them twice weekly but also in areas of their health God has helped us to assist them with medications.

We've planed to be showing to them the JESUS film, when they're back. Pray that the Lord will bring them back safely and open their heart to continue to understand His love for them as they come. Also, that God would open doors of support for this work.
