Beloved Partners,

Calvary greetings to you in the name of Our Lord & Savior Jesus Christ Amen, we're very sorry for not communicating our work update this year, we plead your pardon!

In our 12yrs service with Calvary Ministries (CAPRO), we appreciate the Lord for all He has done for us, in molding, protecting, & using us to work among different nations for His names' sake, we bless God for the CAPRO family.

In evaluating our 12yrs in active missionary work; we desired a rest, but the Lord clearly instructs us that its' time to start what He told Alfred in early 90s, before joining CAPRO for training in 1994. As touching this, we've requested from the Ministry for a release of duty in September 2006, and would take effect from January 2007.

We're not joining another organization, but we trust in His faithfulness to start the ministry He has foretold, full details will be communicated later in the year. The leadership of CAPRO has asked us to return to Nigeria for our sign off in January 2007, Pray, as we trust Him for finance to make this Journey.

WHAT NEXT ? AND DOING WHAT?

After all, we'll return back to Senegal in pursue of the universal / global vision.

Also, Continue the children work. Provides a home for them.

Being witnesses for Christ etc.

OUR HOME!

Alfred & Bidemi is doing fine, holding to His promises. Our health is stable and His abiding grace has sustained us in 7yrs of marriage; As He said to us that, 2006 "*IS A YEAR OF HIS GOODNESS*": PSA 23: 1-6. Indeed we've seen & could testify this in all areas of our beings. We still trust Him for our biological children. Presently, we've a boy & a girl leaving with us.

Soda Sall, is a teenage girl of 15yrs, in her 1st class in the secondary School. From a family of 10, she's calm; hard working; intelligent, desire to be a teacher in the future. We foresee, good things coming as regard her Salvation.

Diatta Sene, is 14yrs old from a polygamous family in his primary six, not too sharp academically, love practical works, selective, quite and open.

They're undergoing pre-conversion teaching and responding positively, both are Sereer children from Muslim background.

CHALLENGES:

Being Parents to teenagers is a great task but we bless God for wisdom, given to us in taking care of them. We're responsible for their Health, education, welfare and Spiritual upbringing etc. And this has tripled our family budget. Also Aisatou, a young widow with 3 children will

be joining us 1st week in January with her 3yr old boy while the rest will join later in the year. She is from a Muslim background, no job, needs a home and love; and we believes showing her the Love of Christ will facilitate her Salvation, She said she want to be a Christian. Pray! One thing that surprises us is that, we don't know how these responsibilities are being and would be executed, but our joy is being faithful to His command no matter how painful, He will make the way visible.

To pioneer a new ministry is a fear of its own, but we heard Him said, we should not despise the days of little beginning. Our co-operate efforts will make these challenges possible.

OUR FINANCES:

We started the year with tears and fear of how to cope with the increase in our budget but the question of how we survived both in life & ministry this year? We give God thanks on your behalf, that without your faithful input it would not have been possible. Your co-effort has kept us abiding to the heavenly call. We pray that the Lord will increase you in all areas in the coming year in Jesus name. Last year, the Lord provided us with a total income of 2'644. 330Fcfa, for life & ministry, though it was not easy; while in 2006, He has provided us with a total of over 4millions Fcfa.

NEEDS AND PRAYER FOCUS

As we trust God to accomplish this task stating from Senegal, we could but share these needs with you.

- As our responsibilities are increasing family wise, so also in ministry, we implore you to pray and participate, as the Lord will enable you.
- We need a bigger accommodation to house the children in other to impart Godly character in them. They'll increase in 2007 in numbers.
- We need a good mobility -4Wdrive/ bus as a family and for ministry, it's embarrassing Alfred getting to programs late because of no transportation while he was to be a guest speaker. Indefinite waiting at the motor park! Expensive and difficult for all of us going to Kaolack for service some times and now that, we're increasing.
- There are needs for beds materials for the children and Aisatou.
- Our Budget will increase as all bills and rents, ministry will depend on us
- We trust God for more Prayer & financial supporters.
- **BLESS HIM FOR ALL HIS FAITHFULLNESS.**

HAPPY NEW YEAR IN JESUS NAME, WE LOVE YOU ALL

Your Co- Laborers,
Alfred & Bidemi.
